

## Notes from 6<sup>th</sup> February Practice

1. Very interesting exercise last evening. Bill did his voice matching activity. A number of us were really surprised at the difference placement makes, but now we have heard for ourselves. A number of the guys have new standing positions and Bill has asked that all remember where they have been placed. The new positions are to be retained for concert performances.
2. Burnside concert June 18. We are the guest choir at this concert. We will perform a selection at the concert.
3. Nov 5 concert is the concert which we support the Craniofacial Unit of The Womens and Childrens Hospital
4. On a sad note Bob Scott announced his retirement from the choir after 18 years. We will all miss him and those deep bass notes and dry sense of humour. We are sure we have not seen the last of him. We wish him well.
5. Keith Gooley has had a hip replacement and is currently recovering in the Memorial Hospital. We wish him a speedy recovery.
